

Restaurant Percent of Sales and Partial Proceeds Events

BryteBridge
Nonprofit Solutions

“Percent of Sales” fundraisers, often hosted by restaurants, offer a pledged portion of their sales during an organized event to the non-profit that they are supporting. Some of these events will require flyers provided by the restaurant to the organization to distribute. The sales made during the event (accompanied by the flyer) will have a percentage of the sale donated! Other times, no flyer is necessary, and all purchases made during the designated time will contribute to the overall donated amount. You can also ask if they offer Gift Card or In-Kind Donations. Some restaurants will even provide free catering for other events you host! All you must do is ask. Be sure to have your 501(c)(3) determination letter available when you make you do.

Below is a list of restaurants known to offer these fundraisers! Start your own fundraiser by contacting your local restaurant and speaking to their leadership to schedule your event.
